

NORTHERN EDGE

COLLECTION

VOXFLOR
passion and purpose

00.

OUR GOAL

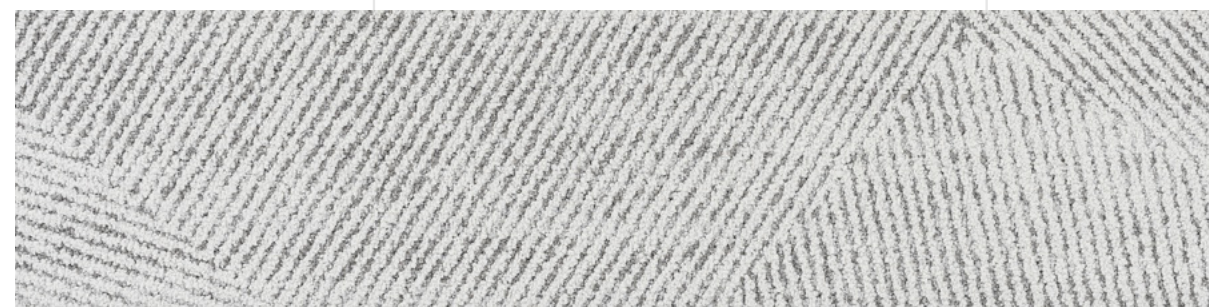

Northern Edge Collection **captures the raw beauty shaped by nature's most powerful contrasts**, light against darkness, softness against strength, stillness against movement. Inspired by dramatic **northern landscapes formed through time, weather, and geological transformation**, the collection reflects a quiet sense of exploration and enduring natural power.

Though expressing different textures and emotions, **Diamond Beach and Basalt Canyon are deeply connected**, both originating from the same remote coastal landscape where volcanic terrain and icy elements coexist in striking harmony. Diamond Beach reflects the luminous beauty of crystal-like forms scattered across dark shores, while Basalt Canyon draws inspiration from towering basalt formations created as molten lava slowly cooled and fractured over time, later shaped further by natural erosion.

BASALT CANYON

Basalt Canyon draws from the strength and rhythm of towering volcanic formations, translating layered geological textures into a structured and grounded pattern language.

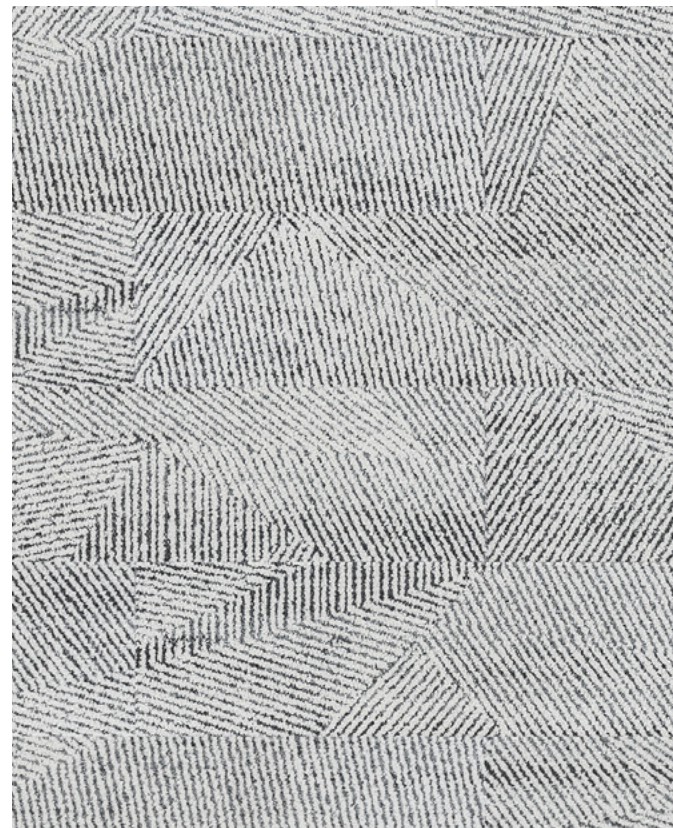

The linear yet shifting pattern reflects the layered geometry found within towering stone cliffs, where structure and irregularity coexist in quiet balance. Available in four grounded base colors with six accent color options, the design allows for flexible compositions ranging from calm tonal continuity to more expressive visual contrast. The interplay between structured lines and softened texture gives Basalt Canyon a strong yet organic character, ideal for spaces seeking both order and natural movement.

DIAMOND BEACH

Diamond Beach expresses the striking beauty of crystal-like forms scattered across dark volcanic shores, creating a subtle interplay of luminosity and texture.

Interlocking geometric forms create a faceted pattern language reminiscent of mineral surfaces shaped by time, pressure, and movement. It features four versatile base colors paired with six accent color options, enabling layered tonal transitions and dynamic spatial compositions. Through its subtle geometry and mineral-inspired detailing, Diamond Beach introduces depth, texture, and quiet brilliance into contemporary interiors.

SPECIFICATIONS

Style Name:	Basalt Canyon; Diamond Beach
Construction:	Multi-Level loop
Fiber:	ECONYL® Regenerated Nylon by Aquafil
Gauge:	1/10"
Stitches:	10 per inch
Pile Weight:	28 OZ/yd ²
Average Pile Height:	4.5 ± 0.5mm
Backing:	EcoAce-Bac® Pro
Tile size:	25cm*100cm
Area of Use:	Commercial – Heavy Duty
Anti-microbial:	Ultra Fresh Treatment (Available)
Flammability:	ASTM E648 Class I, GB8624-2012 B1(C)
Smoke Density:	ASTM E 662 Less than 450, GB/T 8627-1999
Static Propensity:	AATCC-134≤3.5 KV, GB/T 18044-2008

Manufacture System

SOLAR

made carpet

VOXFLOOR® constructs its solar power generation system, utilizing clean energy for sustainable production.

An Environmental Product Declaration (EPD) tells the life cycle story of a product in a single, comprehensive report. The EPD provides information about a product's impact upon the environment, such as global warming potential, smog creation, ozone depletion and water pollution.

Administered by the Singapore Environment Council (SEC) since 1999, It is Singapore's leading environmental standard and certification mark with over 3800 unique products certified across 43 countries.

Credits Contribution to:

LEED (Leadership in Energy and Environmental Design) is the most widely used green building rating system in the world. LEED certification is a globally recognized symbol of sustainability achievement and leadership.

VOXFLOOR® tracks and reduces greenhouse gas emissions (ISO 14064), minimizes the carbon footprint of carpet tiles (ISO 14067), and achieves carbon neutrality through renewable energy and offsetting (ISO 14068-1).

ISO9001, ISO14001, ISO45001 certified, VOXFLOOR® ensures reliable, high-quality manufacturing.

Eco-Ace-Bac® Collection
GLP No. : 100231

Green Label Plus is an independent testing program that identifies carpet, adhesives, and cushion with very low emissions of VOCs to help improve indoor air quality.

CE marking indicates that a product has been assessed by the manufacturer and deemed to meet EU safety, health and environmental protection requirements.

Ultra-Fresh® is a portfolio of antimicrobial treatments developed by Thomson Research Associates, Inc. Customer can choose this High-Performance Antimicrobial Technology.

WELL is the leading tool for advancing health and well-being in buildings globally. Register your office, building or other space to leverage WELL's flexible framework for improving health and human experience through design.

Declare.

Declare is a transparency platform to share and find healthy building products. VOXFLOOR's EcoAce-Bac® Collection reach "Red List Free" grade.

Thanks to its regenerated fiber structure and advanced recycling technology, ECONYL® yarn delivers durability and design flexibility while reducing environmental impact, transforming waste into high-performance nylon for a more responsible and circular manufacturing process.

Cradle to Cradle® Certified is the global standard for products that are safe, circular and responsibly made. It is to ensure the impact of their products on people and planet is a positive one.
